

Attachment 1 to Random Notes 88

This attachment has two parts:

Meter Serial Listing - Serial Number Order

Meter Slogan Usage

The listings are items in the author's collection and should not be taken as the definitive lists.

The serial numbers of many of the missing items can be deduced from the sequences, for example the serial number of RIYADH-10, type MPB01, is almost certainly P.B.0010, but it needs to be verified.

Meter Serial Listing - Serial Number Order

The lists for each type show the office name, serial number, date type (G=Gregorian, H=Hijra) and script type (A=Arabic, W=Western). The serial numbers listed in this part of the attachment are shown in meter type order.
